

SENJUTSU

BATTLE FOR JAPAN

HYŌGAKI

Another seasonally inspired monthly challenge for you all since the temperature is dropping outside here at SSG HQ. A little less competitive than the last two and more just a thematic way to play.

Once again please feel free to photocopy the Frostbite card below for your own personal use.

PLAYER COUNT:

This challenge is for any number of players and can be added to any game mode as an additional battlefield condition.

CHALLENGE GOAL:

Try not to succumb to the cold, better to die by your enemies blade than the weather.

SETUP:

This condition can be used on any battlefield map - though any of the snow battlefields are more thematic.

SCENARIO RULES:

If a player does not move at least 1 hex on their turn they gain a Frostbite card. This card goes face up in play in front of that player similar to a Wound or Hobble.

DECK CONSTRUCTION:

Players should construct their decks using the normal deck construction rules on page 25 of the rulebook.
